BUMPERS

- GUARD R03 & GUARD R03 PRO
- GUARD R02 & GUARD R02 PRO
- IRON

EN Road safety is at the core of our engineering. Takler bumpers underrun protections are designed to provide maximum protection, ensuring structural strength and long-term durability. Available in **aluminium** or **high-strength steel**, our bumpers can be configured in **pre-drilled** to suit any mounting requirement. Every component is rigorously tested and **fully homologated according to ECE R58 standards**, meeting the strictest international safety regulations.

IT La sicurezza stradale è al centro della nostra ingegneria. I paraurti Takler sono progettati per offrire la massima protezione, garantendo robustezza e durabilità. Disponibili in **alluminio** o **acciaio ad alta resistenza**, i nostri sistemi sono configurabili in versione **pre-forata** per adattarsi a ogni esigenza di montaggio. Ogni componente è rigorosamente testato e **omologato secondo la normativa ECE R58**, rispondendo ai più severi standard internazionali di sicurezza.

Guard R03

ANODISED ALUMINIUM

- EN** Anodised aluminium bumper including plastic end caps.
- IT** Paraurti in alluminio anodizzato compreso di testate in plastica.
